LIFELONG LEARNING/FORMATION CONTINUE

Our first course of 2012-13, Design of Aluminum Bridges and Footbridges, which we offered in collaboration with the Aluminum Association of Canada, attracted an audience of 146 engineers and students and was extremely well received.

Our next course is scheduled in March 2013 and will present the 2012 edition of CSA S806: Design of Buildings with Fibre-Reinforced Polymers. Full details will be available on www.csce.ca shortly.

Notre première formation de l'année 2012-13, Calcul des ponts et passerelles en aluminium, offerte en collaboration avec l'Association de l'aluminium du Canada, fut suivie par 146 ingénieurs et étudiants qui l'ont extrêmement bien reçue.

Notre prochaine formation est prévue en mars 2013 et portera sur la version 2012 de la norme CSA-S806 : Design of Buildings with Fibre-Reinforced Polymers qui sera présentée en anglais. Les détails seront disponibles sur www.csce.ca sous peu.

International Conference on Stormwater and Urban Water Systems Modeling

Date: February 21-22, 2013

Location: Toronto, Ontario, Canada

The annual International Conference on Stormwater and Urban Water Systems Modeling is a forum for engineers, scientists, modelers and administrators involved in water pollution control and water systems design and analysis. Professionals from across North America and overseas exchange ideas and experience on current practices and emerging technologies, and the conference is designed for all who have a direct stake in stormwater management, non-point source pollution, or the modeling of urban water systems. Presentations are of a high standard, attendance is large and discussion is lively.
