**International Conference on Stormwater and Urban Water Systems Modeling**

**Date:** February 21-22, 2013

**Location:** Toronto, Ontario, Canada

The annual International Conference on Stormwater and Urban Water Systems Modeling is a forum for engineers, scientists, modelers and administrators involved in water pollution control and water systems design and analysis. Professionals from across North America and overseas exchange ideas and experience on current practices and emerging technologies, and the conference is designed for all who have a direct stake in stormwater management, non-point source pollution, or the modeling of urban water systems. Presentations are of a high standard, attendance is large and discussion is lively.
