

Transportation Division

Dear Member:

I take this opportunity to introduce myself and the activities of Transportation Division to you.

We successfully had our transportation division meeting in London in early June, and clearly defined our goal to move the division forward. We discussed the membership update and 2016 division work plan. The members decided to appoint me as CSCE transportation division's representative on Transportation Association of Canada Chief Engineering Council, taking over from Dr. Susan Tighe. Further, we discussed improvements to the process of Sandford Fleming Award and CSCE Fellow Nomination. Beyond that, our division's Past Chair Dr. Liping Fu hosted the 3rd CSCE-CHTS Winter Transportation Symposium at the University of Waterloo campus. This event was co-sponsored by CSCE and the China Highway Transportation Society (CHTS). , More than 50 attendees participated in this event.

CSCE Co-Sponsored 2017 International Conference on Transportation Information and Safety will take place in Banff on 2017 Aug 8-10, co-organized by University of Alberta, City of Edmonton and Wuhan University of Technology. Around 300 attendees from all round the world are expected to attend the conference. We really hope our CSCE Transportation Division members contribute, promote and join in the event to make it a success. Please click [here](#) for more information

We are actively recruiting new members for the division and division council. We look forward to your active participation. Please contact me at tony.qiu@ualberta.ca, if you have any further question or suggestion.

We look forward to another fruitful year for the CSCE transportation division!

Cheers,

Tony
Chair, CSCE Transportation Division
Director, Centre for Smart Transportation
Associate Professor, Transportation Engineering
University of Alberta, Canada
