CSCE Environmental Division Member Update (December 2016)

Dear Members,

I am the technical chair for the upcoming Environmental Speciality conference in Vancouver in 2017 and therefore look forward to your strong participation at this conference through the abstract and subsequent paper submission. Thanks to all who have submitted abstracts. The review process will be underway soon. If you would like to assist in the review process, please let me know. At the Vancouver conference, we will hold an environmental division meeting and hope you will attend. This will be your opportunity to be involved in the planning of future activities.

Also I would like to remind that if you have ideas for events (seminars, short courses, lecture tours, workshops, etc), production of technical documents and want to become involved in the executive committee, please let me know so we can better serve our environmental members.

Thanks for your attention, current and future participation. Wishing you all the best for the holidays and new year.

Catherine Mulligan
Chair, Environmental Division
