

CSCE Hydrotechnical Division Member Update (December 2016)

Dear Member:

I would like to take this opportunity to remind all CSCE members with an interest in Hydrotechnical Engineering about the upcoming 23rd Canadian Hydrotechnical Conference to be held in conjunction with the CSCE Annual Conference in Vancouver from May 31st to June 3, 2017 at the Bayshore Westin Hotel. The deadline for abstract submission has been extended to today, December 20th, 2016 (please see <http://csce2017.ca/> for more details). The topic can be from research, an interesting or unusual project that you have worked on, or a new innovation in practice. The conference topics are broad and include the following:

- 1) River, Coastal and Estuary Engineering
- 2) Water Supply and Wastewater
- 3) Climate Change
- 4) Hydrology
- 5) Computational and Physical Modelling
- 6) Hydropower and Hydrokinetics
- 7) Eco Hydraulics and Fisheries Engineering
- 8) Ice Engineering
- 9) Dam Safety
- 10) Sedimentation and Geomorphology
- 11) Water Quality, Limnology, and Stratified Flows
- 12) Stream and Habitat Restoration
- 13) Urban Hydrology and Hydraulics
- 14) Flood Hazard Assessment and Mitigation
- 15) Risk Assessment
- 16) Hydrogeology
- 17) Hydroinformatics and Instrumentation
- 18) Water Resource Policy, Planning, and Management
- 19) New Developments and Case studies

We are also looking for reviewers for conference papers. If you are interested, please let me know at Kerry.Mazurek@usask.ca if you haven't already contacted myself or the Technical Chair of our conference, Brian Hughes.

As I mentioned in my September email, the conferences are always fun and productive. It's a great conference to both learn and network. I look forward to seeing you there!

Warmest Regards,

Kerry Mazurek, Ph.D., P.Eng.
Chair, Hydrotechnical Division, CSCE
