

### **Environmental Division Update – September 2017**

Dear Members,

As the technical chair for the Environmental Speciality conference in Vancouver in 2017, I would like to thank all who participated in the conference. Following this successful conference, the call for papers is now out for CSCE2018 which will build on our strategic direction of Leadership in Sustainable Infrastructure under the theme of “Building Tomorrow’s Society” in Fredricton, NB.

Again as the Environmental Specialty conference will take place at this conference, please send in your abstract of 400 words. The deadline is October 31. For more information about the conference and abstract submission, please visit: [www.csce2018.ca](http://www.csce2018.ca). We look forward to your participation.

Also I would like to remind that if you have ideas for events (seminars, short courses, lecture tours, workshops, etc), production of technical documents and want to become involved in the executive committee, please let me know so we can better serve our environmental members.

Thanks for your attention, current and future participation. Hope to see you at the conference next year.

Catherine Mulligan  
Chair, Environmental Division
