

Katrin Habel, Dr. sc. techn., P.Eng

Katrin Habel, Dr. sc. techn., P.Eng., is the manager of the Vancouver bridge rehabilitation group for Associated Engineering with experience in the design, assessment and rehabilitation of transportation structures for government and industrial clients. She is the Chair of the task force on fibre reinforced concrete for the Canadian Highway Bridge Design Code (CSA S6) and a member of the task force for ultra-high performance concrete (UHPC) for the Concrete Materials Code (CSA A23.1/2). Katrin is an Associate Member of the Technical Committee of the Canadian Highway Bridge Design Code and Member of subcommittees on Rehabilitation and Loads, and ACI committee 239 UHPC. Her involvement in UHPC dates back to her doctoral studies, which she completed at the Swiss Federal Institute of Technology in Lausanne (EPFL) in 2004, and post-doctoral research at the University of Toronto in 2005 and 2006. Katrin is a registered Professional Engineer in Alberta, British Columbia, Manitoba, the Northwest Territories & Nunavut, and Quebec. Katrin was awarded the inaugural ACI Award of Excellence in the Repair & Restoration Category for the Mission Bridge Seismic Retrofit of Pier S4 with UHPC, in 2015 and the CSA Award of Merit for her work on the fibre reinforced concrete task force of CSA S6 in 2019.
